

THE PERIL OF PAIN

Those who fail to keep in the house some reliable remedy for den stomach and bowel troubles are overlooking a remedy that may be needed any hour of the day or night. When needed it may be badly needed. In cases of Cholera, Morbus, Diarrhoea, Flux, everything depends on having a remedy at hand and it should be a certain remedy.

Ramsey's
Diarrhoea Runaway
to take, is sure and harmless. If it fails to do its duty, your money will be refunded.

OBJECTIONS TO CONSTITUTION.

Committee Appointed to Prepare Republican Brief.

Oklahoma City, June 29.—A committee has been appointed by Chairman Jake Hanson of the state Republican central committee, to prepare a brief naming the objections to the constitution in answer to the proposition of President W. H. Murray of the constitutional convention. The committee will meet tomorrow in Guthrie and begin work. The personnel of it is as follows: J. A. Harris, chairman; I. T. O. A. Miller, Oklahoma City; F. H. Groer, Guthrie; W. B. Johnson, Ardmore; J. S. Arnett, South McAlester; C. W. Raymond, Muskogee; T. L. Ferguson, Watonga; Rev. G. B. Rankin, Lawton; William Johnson, Bartlesville; C. B. Rogers, Vinita; Leola Guthrie, Oklahoma; C. J. Jones, Oklahoma City.

Auto Ambulance for Army Post.
Lawton, O. T., June 29.—Automobile ambulances are shortly to be used at Fort Sill. Captain Marvell has received word that the post will probably be provided with two of these vehicles, patterned after the ones

cently purchased for the military academy at Washington. Each car will have a ninety-horsepower compound condensing steam engine, and will be capable of making a speed of forty to forty-five miles per hour. They will carry ten persons each inside and two on the front seat. Each vehicle will cost about \$4,000.

Every one of Burnett's boards is a "Front Page" and preferred location.

You Should Have One.
Our sewing machine motors are great labor savers. Let us attach one to your machine. We would also like to send you one of our electric flat irons on thirty days' trial.

Foreign Mission Society.
The Woman's Foreign Mission society of the Broadway Methodist church will meet with Mrs. J. M. Grose Thursday afternoon at 2:30. A very interesting program has been arranged.
MRS. MAUPIN, President.

GROWING CROP PROSPECTS

COTTON AN AVERAGE YIELD. CORN WILL MAKE A BIG CROP—NO OATS.

From what can be learned from the various and numerous farmers in the city Saturday the conditions of the present growing crop are good. It is the consensus of opinion that cotton although a little late with the proper seasons will make a big crop of the number of acres sowed. The cotton crop on the bottom land is in fine shape and is doing as well as can be expected, while crop on the prairie is not doing quite as well, although an average crop may be looked for unless the unforeseen happens.

A good corn crop is practically assured, and should the cotton crop fall short a good crop of oats and corn will bring prosperity. A large number of the farmers throughout this section, on account of the late spring and poor start of the cotton crop began investing in hogs, and with a good corn crop in sight a good hog crop is promised which means as much if not more money than cotton, although the three crops work well together.

The grain crop is practically a failure in so far as wheat and oats are concerned, and one farmer was heard to remark that there will be no threshing machines in work. The green hogs did their work well in the matter of destroying small grain, and unless the government finds some method of eradicating the pest this country will almost cease to be a grain producing section.

COMMERCIAL CLUB AWAKE

WILL GO AFTER OTHER INSURANCE COMPANIES—BIG BRICK PLANT IN PROSPECT.

The Commercial Club is going after several more general agent life insurance companies, and will in all probability land them. Secretary Sanders of the Commercial Club stated today that within a few days he, together with several of the leading citizens and property holders of the city, would visit Dallas for the purpose of interesting other agencies located in that city, with a view of securing them for this city. Inasmuch as the Mutual Life of New York, N. J., has rented quarters and will move here, the committee thinks that they will find little trouble in securing others to come.

A number of the leading citizens have at last awakened to the fact that a live commercial club is of great value to a city and are doing everything possible to help the secretary to secure settlers and enterprises to come here.

In all probability the club will be successful in getting at least half of the general insurance agencies to locate in Ardmore from Texas, and should the club be successful it will mean the addition of at least three or four hundred more population.

The representatives of a large brick manufacturing concern will be here during the next week for the purpose of prospecting this section of the country with a view of locating a yard near here or in the outskirts of the city.

The one thing needed to help build the town is a good brick manufacturing plant, and that is practically assured, as the fuel question is settled when natural gas is piped in which will be but a short time as soon as the pipe arrives and the question of right of way is settled.

WILL SETTLE HERE

AN IOWA FARMER BUYS LAND NEAR CITY—WILL ENGAGE IN SCIENTIFIC FARMING.

Smith, Higgins & West, a prominent real estate firm of this city, closed a deal this week for the sale of the T. K. Kearney place, about two miles south of the city, to an Iowa farmer by the name of T. K. Hodges of Sioux City, Iowa. Mr. Hodges is an experienced, scientific farmer and will move his family here about Nov. 1, after the present crop has been gathered. The purchase price paid for the 60 acres was \$1,800.

In all probability when Mr. Hodges returns it may mean the bringing of a number of other scientific farmers with him from the cold north. It is this class of citizens that this section mostly desires.

\$35.00 a month for 12 months will advertise your business like a circus for a whole year. See Burnett about it.

MIRIE'S BREAD and barbecue meat always good. 295 N. Caddo Phone 259. 30-1m

Cutting Affray at Pauls Valley.

Yesterday about noon a very serious cutting affray occurred a few miles south of town on one of the rent farms of J. C. Elliott between Jim McClellan and John Moody, tenants on the farm. It seems, from the best information we are able to ascertain, that Moody went into the field where McClellan was plowing and began to abuse him, and also proceeded to butcher him up with his pocket knife, inflicting several very serious wounds on McClellan's person. The most serious wound, as reported by the attending physician, Dr. Mantus, is just below the heart. The Dr. says he is in a very critical condition and his chances for recovery are very doubtful.

The trouble seems to have come up about stock matters. They are both men of families and are considered good citizens.

Moody was taken in charge by officers and landed in jail to await preliminary hearing.—Pauls Valley Democrat.

Found Silk Gloves.

Ten pairs of black silk gloves were taken away from Willie Clark, a youth of this city, Friday afternoon, by Chief of Police Buck Garrett, and it is said that Clark had already given away a number of pairs of the gloves.

When questioned as to where he got the gloves, the youth replied that he together with other boys found them in a box in the rear of the Wonder store. Mr. Garrett took the gloves from the boy and returned them to their owner, Morris Suss, proprietor of the store, stated that the gloves had been taken from his counter, by whom he could not tell.

The story told by each of the youngsters was the same. The matter will be dropped by Mr. Suss, who does not care to prosecute the case.

Marriage Licenses Issued.

Cupid has had a busy week of it last week, and as a result the clerk's office has been kept busy issuing licenses to parties wishing to wed. Saturday was a dull day with the clerk in this line, but notwithstanding the falling of Judge McCoy issued three licenses to parties in the city.

The following were the licenses issued: James F. Jordan, Ardmore, and Mrs. Eda Ward, Oakland. Ernest Burpo, Powell, and Miss Mary You, Madill. This couple were quite youthful, the groom having attained the age of 18 and the bride 19 years.

The third couple to apply were Stan Carmon and Addie Wilson of Ardmore.

REPORTS IN PREPARATION

FEDERAL OFFICE HOLDERS MAKING ANNUAL REPORTS FOR FISCAL YEAR 1906-07.

The federal officials including the clerk's office, marshal's office and U. S. attorney's office, are all busily engaged in preparing their annual report for the fiscal year ending July 1. The postoffice is also engaged.

The marshal's office force expect to be engaged on the task for several days, and in all probability a week or more, as the office here is the head office for the entire Southern district and as a number of court towns are in this district it will take some time to prepare all the statistics necessary to complete the work.

The district attorney's office will also take considerable time to prepare all the necessary data for Uncle Sam.

In all probability the showing that will be made by the officials in this district will be flattering. The postmaster is sure of securing an increase in salary for himself and employees in the office on the showing that will be made for the past year. The business so far this year has shown such a wonderful growth when compared with previous years, and a big increase is shown when compared with Gainesville, Tex.

The Grand Leader receives California fruits from Chicago daily. Phone 777. 30-3

CROP PROSPECTS GOOD

DR. YOUNG GIVES HIS VIEWS ON THE CROP SITUATION IN THIS COUNTRY.

Dr. J. F. Young returned Saturday from a trip over the western part of Carter county, where he has been on business. The doctor is greatly interested in farming lands owning a number of farms himself.

While on the trip through the country Dr. Young paid especial attention to the prospects of cotton and corn this year. He stated that there was plenty of corn in the field and that the yield would probably be great this year.

Dr. Young stated that the cotton acreage this year was a country he visited some twenty percent shorter than last year. This he ascribes to the fact that in many instances the farmers had to replant several times. In such instances many of them would replant part in cotton and part in corn. This is the reason for so great an acreage of corn being planted.

Where the cotton has been properly worked, he stated, a good showing is made and the prospects for a good crop of the staple is favorable.

Imported bulk Roquefort cheese today at the Grand Leader. Phone 777. 30-3

A Fine Garden.

T. H. Dunlap has one of the finest cultivated gardens in the city, at his home place in the northeast part of Ardmore. Mr. Dunlap has given especial attention to raising vegetables of all kinds the past year and has by his efforts shown in a measure what the territory soil can produce. His chief vegetable however has been the Irish potato. This he has cultivated wonderfully and has some fine specimens of that vegetable.

Do you want prompt delivery? Phone the Grand Leader, No. 777. 30-3

Suit Case Thieves Arrested.

Fletcher Davis, John LeRoy, Ed Williams and Lewis Bonner, all colored, were arrested early Saturday morning by Policemen Banks King and Tom Carter after a chase of all night, on a charge of stealing a suit case containing about \$50 worth of clothes.

The case belonged to Charley Key, a white man of the city. Late Friday afternoon Key was bringing the suit case up Main street. He stopped at a rooming house on East Main street, for the purpose of going up stairs for a pair of shoes. He set the grip down at the foot of the stairs. He was not gone over ten minutes, returning to find his suit case missing.

Realizing that the thief could not have gotten far, he gave pursuit, coming up with them near the dive on East Main. He secured the suit case but the men escaped. The police were put on their tracks and run them down last night. LeRoy is the oldest of the negroes being about thirty years of age. The others are mere boys.

They are being held by the police but will be turned over to the federal authorities for trial.

POINTS TO REMEMBER

Every Appliance for Woman's Work Should Be the Best for Its Purpose.

There is as great a difference in the cost of making a sewing machine as there is in making a watch. A cheap watch will in due time with fair accuracy for a short time; fairly good stitching can be done on some of the old patterns of cheap sewing machines when they are new, but they always work hard, are noisy, and soon wear out.

Every Singer and Wheeler & Wilson machine is tested by actual sewing at the factory. It is always ready for every kind of stitching and will do better work and do it longer than any other, because it is of better design and construction.
